

 LEDA

*Astoria*

*With its inspiration rooted in France's Post Moderne era and the North American Art Deco period, this classic nouveau collection features quarter-cut mahogany veneers, jewelry inspired hardware design in aged sterling, and finished in Leda's soft, sophisticated Retro Mahogany finish, styled to fit any decor.*

## *Astoria*

*Sophisticated and elegant. Reminiscent of the by-gone era. Wealth, affluence, tuxedos and evening gowns in grand salons with the elegance of Hollywood Glamour.*

*Astoria*

*Hollywood Glamour... Revisited*

# Quality      Durability      Longevity

Leda Furniture Ltd. prides itself in manufacturing high quality furniture. All materials used to craft our fine furniture are carefully selected to ensure that each Leda heirloom will last for generations.

Along with quality materials, Leda also incorporates crafting methods and construction features that enhance our furniture design. This attention to detail adds quality and durability to the furniture, as well as convenience and adaptability for the consumer's needs.

**Adjustable Shelves:**  
Allow for easy and flexible storage space and reorganization.

**Accessory Trays:**  
Select cabinets include a convenient and stylish tray to store and protect jewelry, valuables and assorted silverware.

**Dovetail Joinery:**  
Wedge-shaped projections on the drawer panels interlock with alternating grooves to produce a tight and secure joint.

**Solid Metal Hardware:**  
Leda Furniture casegoods feature decorative solid metal or brass hardware, aesthetically pleasing to touch and feel, with lasting durability.

**Drawer Runners:**  
Teflon strips installed in the drawer opening ensuring an smooth and even slide for the drawer. These strips also add to the cabinets' sturdiness.

## Wood Finish:

Leda Furniture maintains strict finishing requirements. Talented craftsmen take extreme pride in the art of finishing, including staining, padding, rubbing and highlighting - all by hand. We are very careful to formulate and apply each finish to exacting standards. However color variations will occur because natural woods vary in their reaction to finishing materials due to age, grain pattern and raw wood tone. The finish shown is reproduced as accurately as printing techniques permit.

**Drawer Guides:** wooden glides: Installed underneath each drawer designed to slide on top of the drawer runner to provide quiet and smooth drawer operation.

**Dustproofing:**  
Wood separators installed between each drawer to prevent dust from entering through open spaces, protecting belongings stored within. These components also add to the cabinet's sturdiness.

**Integrated Power Supply:**  
Computer compatible cabinets and tv armoires have built-in surge protection power outlets and cable connector, creating easy wire management and power activation when electronic components are connected.

## Statement of Quality

Leda has manufactured furniture since the late 1960's, utilizing state of the art technology, skills and craftsmanship. Each piece is made to exacting standards and of the highest quality materials available. All pieces are inspected at numerous intervals during the manufacturing process, including a final inspection prior to packaging.

Despite our best efforts some imperfections may occur once the furniture has had time to settle after the manufacturing process. These situations may require repairs and/or part replacements

Leda Furniture selects glass and mirrors of the highest quality to complement the furniture. However the very best glass and mirrors may have certain characteristics that are inherent in the glass making process, these include faint scratches, air bubbles and pitted areas. These minor allowable marks do not detract from the beauty and integrity of the product.

Leda Furniture Ltd stands behind its product in regard to manufacturing related issues (materials, workmanship) for a period of one year from date of shipment from our factory.

## Caring for Astoria:

### Wood Finish:

Leda finishes are resistant to most everyday hazards, however some precautions are necessary to maintain the beauty of your furniture.

- dust regularly with a soft clean cloth, slightly moistened with water, and dry completely with a separate dry cloth, always rubbing with the grain pattern.
- avoid contact with harsh solvents, i.e.: hot dishes, nail polish, alcohol and moisture.
- clean spills immediately.
- use pads when displaying accessories and heated items on table and cabinet
- do not place furniture tops near heating outlets, windows or direct sunlight.

### Decorative Hardware:

- clean with a soft damp cloth.
- avoid using harsh detergents or polish on the hardware.

These practices will help your Leda Furniture maintain its beauty and elegance for years to come.

### Note to Retailers:
