All wood surfaces are finished and protected by our superguard finish.

Quality

Durability

Longevity

Leda Furniture Ltd prides itself in manufacturing high quality furniture. All materials used to craft our fine furniture are carefully selected to ensure that each Leda piece last for generations.

Along with quality materials, Leda also incorporates crafting methods and construction features that enhance our furniture design. This attention to detail adds quality and durability to the furniture, as well as convenience and adaptability for the consumer's needs.

Below are some key features that ensures that your Leda Furniture is one step beyond!!!

Dovetail Joinery

Dovetail joinery used to join the sides of the drawer to its front and back. Wedge-shaped projections on the front and back panels interlock with alternating grooves in the side panels to produce a tight and secure joint that remains solid.

Dust Proofing

Wood separators installed at the between each drawer apertures. It prevents dust from entering through open spaces. Nailed to the structure of the furniture, they prevent loosening prolonging life expectancy.

Drawer Runners

Drawer runners are wood strips installed in the center of each drawer aperture. It directs the drawer slide evenly and smoothly while avoiding possible contacts and damages to the wood surfaces. These strips also add to the sturdiness of the furniture acting as an additional frame component

Drawer Guides

Wooden glide installed underneath each drawer. Designed to slide on top of the drawer runner. It provides quiet and smooth drawer operation. Being affixed to the front and back of the drawer it also reduces the pressure being supported by these pieces in the open/close process.

Adjustable Shelves

Most cabinets, buffet, hutches and armoires feature adjustable shelves allowing flexible storage space and reorganization without any structural changes.

Integrated Power Supply

Computer compatible cabinets and tv armoires have built-in, surge protected, power outlets easing wire management and power activation when multiple electronic components are connected.

Accessory Trays

Most dressers, buffets and sideboards include a convenient and stylish tray to store and protect jewelry, valuables, cutlery etc.

STATEMENT OF QUALITY FROM LEDA FURNITURE LTD

Congratulations, you have purchased furniture from Leda Furniture Ltd, manufacturers of fine furniture. Please fill out the postage paid registration card attached and return it to us and we will record your purchase.

Leda Furniture Ltd has manufactured furniture for some 37 years, using today's technology, skills and craftsmanship. Each one of our pieces of furniture is made to exacting standards and of the highest quality materials available. All pieces are inspected at numerous intervals during the manufacturing process, including a final inspection prior to packaging for shipment.

Prior to delivery to your home by the local retailer, we recommend each piece undergo a thorough "deluxing" process where it is inspected for such things as, drawer and door adjustment/alignment and scratches/nicks/dents that could occur after delivery to the retailer.

Despite our best efforts, wood is not perfect, and some imperfections could occur after delivery. When problems do occur, it should be reported to your retailer immediately. Leda Furniture Ltd. will rely on those retailers to perform the necessary actions needed to resolve any problems. This may involve ordering repair parts or replacement pieces. Leda Furniture Ltd stands behind it's products for factory related problems (materials/workmanship) for a period of one year from the date of shipment from our factory.

Thank you for your decision to purchase your new furniture from Leda Furniture Ltd. Please know that your choice was a wise one and one that will serve you and your family on for many generations.

Care for your Leda Furniture

Wood surfaces

- Avoid prolonged exposure to direct sunlight
- Avoid direct exposure to heating devices
- Do not leave plastic or rubber materials on wooden surfaces.
- Wipe up spills immediately.
- Clean with a damp cloth always rubbing with the grain direction
- Avoid placing hot dishes without a protective pad underneath.
- Avoid using harsh solvents (nail polish and remover, alcohol) and abrasives.

Brushed Nickel and Ferrules

- Clean with mild soap and water
